## 6) Program Evaluation

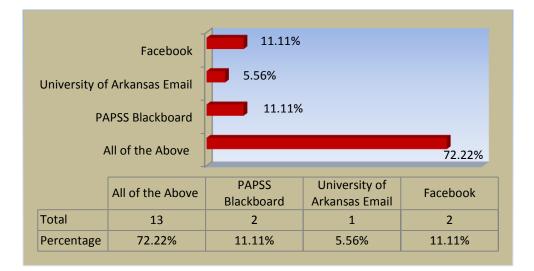

Scholars filled out a survey to determine overall satisfaction after the spring term, 2013. This evaluation will direct program expansion and continuous improvement for the 2013-14 academic year. Data was captured using Survey Monkey online via an email and web link sent directly to 32 scholars with a return rate is 56% (fourteen complete, four incomplete).

The findings inform us that scholars prefer all current communication methods and overall satisfaction for tutoring and mentoring was high. Scholars prefer monthly group meetings with topics that include academic conduct and standards, financial management, and leadership. Scholars prefer to visit St. Louis, Missouri and are interested in participating in an ambassador based program. The open ended questions inform the program of its strengths and areas for improvement. In an effort to improve communication, PAPSS will provide monthly student updates beginning in August, 2013 that will be posted on blackboard, email and announced at monthly meetings.

| Organization and helpfulness  |  |  |  |  |  |
|---|--|--|--|--|--|
| I like most of the things that this program and the University have |  |  |  |  |  |
| offered us.   |  |  |  |  |  |
| The kindness of the coordinators and assistants. They are always    |  |  |  |  |  |
| able to help you.   |  |  |  |  |  |
| How the program is going  |  |  |  |  |  |
| Patience  |  |  |  |  |  |
| They encourage us to have a great success                           |  |  |  |  |  |
| We can share our experience   |  |  |  |  |  |
| How calm and secure it is to be here. Also, the help Patricia has   |  |  |  |  |  |
| given me.   |  |  |  |  |  |

What I like the best is all the support that everybody has received from the program and the university. I think we are lucky in having such a nice people helping us.

I like the organization of everything. Thanks to Patricia, Lynn, and Michael that are always with the Panamanian students. The University has been pretty good. I loved it. It is totally different from Panama, but the professors, advisers, and all the people have been very helpful.

That we have someone to ask for information.

The program is really helpful.

The opportunities you have as a student

Me encanta este programa porque tenemos personas que estan dispuestas a guiarnos y apoyarnos. Somos muy afortunados, porque tenemos ese respaldo de personas como Patty and Mike para ayudarnos en cualquier momento (I love this program because we have individuals who are available to guide and help us. We are very fortunate because we have the support of Patty and Mike who will help us at any time.)

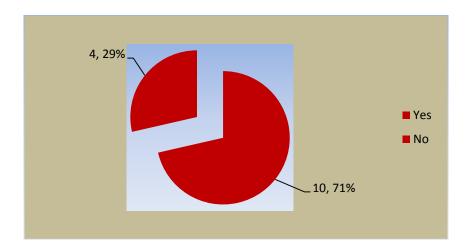

#### 9. What can we do to improve the program or your experience at the University of Arkansas?

- Answered: 14
- Skipped: 4

| Probably be more clear and specific when conveying information          |
|---|
| One option can be to get enroll in more activities at the U of A. I     |
| mean social activities.   |
| I think the PAPSS program brings an excellent support to all the        |
| students.   |
| Talk to the students  |
| Everything is ok.   |
| You have to explain more clearly because sometimes you told us          |
| something but it isn't clear  |
| Making trip   |
| Everything is good.   |
| Nothing, it is excellent  |
| I think that sometime should we have more communication. Making         |
| more meetings with all the PAPSS could be solution, in this way all     |
| are going to know the same. Maybe some time there are                   |
| misunderstanding.   |
| That if information is given to a student, it should be said for all of |
| the other PAPSS students. Everybody should know the same and not        |
| just a group of them.   |
| To improve communication between scholars and the people who            |
| manage PAPSS  |
|   |

Try to keep in constant touch with us and have clear information Seguir en con los mismos metodos! (Follow the same methods!)
